Dear Mr. Lem:

The County Sanitation Districts of Los Angeles County (Districts) *Wastewater Ordinance* specifies that all required industrial wastewater analyses be performed by a California State Certified laboratory or by a laboratory approved by the Sanitation Districts.

The Districts recognize your certification as an Environmental Laboratory by the State of California Department of Health Services. The Districts will accept sample results from the use of appropriate methodologies, as determined by the Districts that you are certified to perform. The laboratory identification number appearing on this letter **must** be included on all analysis reports submitted to the Districts.

Continued recognition of your certification shall be maintained by periodic satisfactory completion of split sample analyses, compliance with Districts' requirements and an adequate rating on any future visits by Districts' personnel. Please notify the District upon any changes of name, address, telephone number, or supervisory personnel.

If you have any questions regarding this laboratory approval, please contact David B. Whipple of the Sanitation Districts' Industrial Waste Section at extension 2909.

Very truly yours,

James F. Stahl
